

PG Programs

M.Tech Design & Production Engineering Heavy Electrical Equipment. Design & Production Engineering. Power Plant Machinery (Thermal). Design & Production Engineering. Power Plant Machinery (Hydro Electric). Engineering. Materials for Design & Production of Heavy Engineering. Equipment. Foundation Engineering. Applied of Machinery & Systems. Stress & Vibration Analysis of Machinery & Structures. Digital Communication Engineering. Public Health Engineering. Including Environmental Engineering. & Planning. Urban Development & Planning. Maintenance Engineering. Microwave & Millimeter waves. Industrial Design.

Energy Engineering. Environmental engineering. Information Security. VLSI & Embedded System. Electrical Drives. Remote Sensing & Geo Informatics. Structure. Bio-informatics. Nano Technology. CSE. Transportation Engg. Geotechnical Engineering. Energy. M.Sc Mathematics. MBA
