

## ABOUT THE INSTITUTE

Maulana Azad National Institute of Technology (MANIT), an Institute of National Importance, formerly known as Maulana Azad College of Technology (MACT), is India's one of the first eight Regional Engineering Colleges. The Institute is successfully producing highest quality skilled manpower to cope up with challenges of modern technological advances with about 200 faculties and 4000 students. The Institute offers 9 UG and 31 PG courses and Ph.D research programmes.

Bhopal is the capital city of Madhya Pradesh and is also known as city of lakes. It is well connected to various parts of the country by rail and air. The Institute is about 9 km from Bhopal railway station. Weather in Bhopal is pleasant with little cold in month of October.

## MANIT-ROLTA INCUBATION CENTRE

MANIT Rolta Incubation Centre was inaugurated on 4th September 2014 by Mr. Kamal K. Singh, Chairman, Rolta Group of Industries and Alumni of MANIT (MACT). He financed the building and other infrastructure required to start the incubation centre. The centre has eight cells, namely, a Product Development cell, NANO satellite project cell, Industry-Institute Interaction cell, Vision cell, Web development and Internet radio cell, Entrepreneurship Development cell, and Intellectual Property Rights cell.

In the context of "MAKE IN INDIA" concept picking up, this incubation centre is a significant step towards encouraging development of innovative products and providing start ups and technical support to prospective entrepreneurs.

## ENTREPRENEURSHIP EDUCATION

Entrepreneurship education is considered as one of the most influential forces that determine the health of the economy. The majority of the top business schools in India offer Entrepreneurship education with tailored elective courses to inculcate a wide range of skills encompassing a multi-disciplinary approach among mature management students. However, considering the basic synergies of core management subjects such as marketing and Entrepreneurship, both of which provide an opportunity to develop unique solutions to satisfy customer needs, the study of entrepreneurial aspects as a prerequisite for management education and research seems indispensable when specifically catering to the growing entrepreneurial intent in developing economies. This approach necessitates a compulsory initiation of Entrepreneurship courses early in the curricula of contemporary business schools.
