

Central Library

MANIT, Bhopal

NOTE

Dated: 06 / 10 / 2010

Subject: Information about Library Initiatives and Available Resources

The Central Library has taken a number of new initiatives over the past 6 – 7 months but it has come to notice that the information is not percolating down to institute students, to the extent it should.

The I/c Librarian is requested to ensure that all new initiatives taken by the Central Library, information about existing and newly added resources, and any other information of interest to the students, reaches them promptly through Students' Council and the Institute Web Site. It is to be realized that students are a major stake holder in any educational institution and have every right to know about the steps taken in their interest.

The office bearers of Students' Council are also requested to act as the connecting link between Central Library and Students and be in regular touch with the I/c Librarian, the Coordinator and Prof. I/c to have all relevant and current information. They are free to contact the I/c Librarian and the undersigned, to highlight all problems faced by them and offer constructive suggestions for overall improvement of our library setup. The suggestions, if found feasible, may be taken up for implementation. A periodic meeting chart can also be prepared to keep the communication going between the Central Library Team and Office Bearers of Students' Council.

(Prof. Ajay Pandey)

Coordinator (Central Library)
